

IBRAHIM EZZELDIN MIRGHANI

IT SUPPORT ENGINEER (L2) | APPLICATION SUPPORT SPECIALIST

Results-driven IT Support Engineer (L2) with extensive experience in Windows and macOS environments, Microsoft 365 administration, and Active Directory management, seeking to deliver high-quality second-level technical support and minimal-downtime IT operations within the GCC region.

 Hema222@gmail.com  +971 – 0505470457

CORE COMPETENCIES

- ➔ IT Support
- ➔ Application Support
- ➔ Incident Management
- ➔ Troubleshooting
- ➔ Automation Scripting
- ➔ Compliance
- ➔ Database Management
- ➔ User Training
- ➔ Active Directory
- ➔ SLA Management
- ➔ Endpoint Management

TECHNICAL SKILLS

- ➔ Security Monitoring: Splunk, Datadog, Dynatrace, ELK (basic)
- ➔ Threat & Incident Response: RCA, Alert Analysis, MFA & Access
- ➔ Troubleshooting
- ➔ Scripting & Automation: Powershell, Bash, Python (basic)
- ➔ Incident Management: Application issue identification and resolution
- ➔ Compliance & Audit Support: ITIL v4, ISO 9001:2015, Internal Audit Support
- ➔ Application Support & Monitoring: Banking domains, L1/L2 production application support
- ➔ Google Workspace & Microsoft 365: Gmail, Google Drive, Docs, Sheets, Slides, Word, Excel, PowerPoint, Exchange Online, SharePoint, Teams Collaboration & Cross-Team
- ➔ Coordination: Developers, QA, Infrastructure teams
- ➔ Active Directory & Identity: User account management, Group Policy, Access Control, MFA
- ➔ Endpoint Management: Microsoft Intune, JAMF, Google ChromeOS Administration

WORK EXPERIENCE

Application Support Specialist Alef Education Project | e& enterprise

Key Result Areas:

- ➔ Provide Level 2 (L2) technical support for desktops and laptops (Windows 10/11 and macOS), enterprise applications, Microsoft 365, and cloud-integrated platforms, handling escalations from L1 within defined SLAs.
- ➔ Administer and support Microsoft 365 services (Outlook, Exchange Online, Teams, OneDrive, SharePoint) and manage Active Directory user accounts, access control, and group policies.
- ➔ Perform root cause analysis (RCA) for recurring incidents and coordinate with L3, infrastructure, and security teams for complex issue resolution; monitor system health using Datadog, Dynatrace, and Splunk.
- ➔ Provide Mac device support including configuration, software installation, and troubleshooting; manage tickets and escalations via ServiceNow and Jira, maintaining knowledge base documentation.
- ➔ Diagnose and resolve hardware, software, printer, and network connectivity issues (DNS, DHCP, TCP/IP); develop automation scripts in Bash and PowerShell to streamline incident routing and reduce response times.

December 2020 - Present

CAREER TIMELINE

- ➔ Extensive experience in IT Support (L1/L2), specializing in application support and cloud technologies, with a strong track record of enhancing operational efficiency in enterprise environments.
- ➔ Currently serving as an L2 Application Support Specialist at Alef Education Project (e& enterprise), ensuring high-quality application support, system performance, and security.
- ➔ Comprehensive understanding of IT systems and processes, developed through diverse roles in incident management, compliance, and user support, fostering well-rounded expertise.
- ➔ Implemented automation scripts, leading to a significant reduction in incident response time, improved system uptime, and enhanced user satisfaction.
- ➔ Strong leadership and communication abilities, collaborating effectively with cross-functional teams to resolve complex technical challenges and optimize service delivery.
- ➔ Deep knowledge of ITIL and ISO standards, ensuring compliance with industry best practices and service management frameworks.
- ➔ Advanced proficiency in cloud technologies, particularly in Microsoft Azure, driving cloud performance optimization and security enhancements.
- ➔ Achieved 82% reduction in workload by implementing advanced automation scripts.

PROFILE SUMMARY

Course	Effective Date	Management	Certification
ITIL v4 Foundation in IT Service Management	March 6, 2021		
ITIL Foundation Certificate in IT Service Management	March 6, 2021		
Google ChromeOS Administrator	March 6, 2021		
			Effective Date: December 22, 2024

Diploma in Computer Science
Almoalem Institute, Khartoum
GPA: 3.5 | 2011

Bachelor of Science in Physics
Sudan University for Science and Technology
GPA: 3.7 | 2010

- ➔ **Ticketing & ITSM:** ServiceNow, Jira, Zoho Desk
- ➔ **Application Logs & Monitoring:** Splunk, Kibana, New Relic, Datadog
- ➔ **Operating Systems & Platforms:** Windows, Linux, macOS | VPN, DNS, DHCP, TCP/IP
- ➔ **Database Management:** SQL (MySQL, PostgreSQL, SQL Server, Oracle)
- ➔ **Networking & Security:** DNS, DHCP, TCP/IP, VPN, Firewalls

- Supported SAP-integrated systems across various business units, focusing on maintaining uptime and secure configurations.
- Managed incident response, addressing network configuration issues, conducting system baseline reviews, and tracking patches.
- Participated in internal audits and configuration reviews to ensure adherence to security and compliance practices.
- Provided training and documentation to enhance awareness of secure system usage and policy compliance.

Quality Control Officer

- Implemented ISO 9001:2015 quality controls throughout the supply chain, from inbound logistics to final delivery for major clients.
- Ensured compliance with Integrated Management System (IMS) standards and managed structured documentation using Oracle JD.
- Maintained records for operational inspections and addressed process deviations.

Western Bainoona Group
Key Result Areas:

Key Result Areas:

- ➔ Prepared daily timesheets and managed accommodation and transportation logistics for office staff.
- ➔ Addressed client requests and ensured guest satisfaction during check-out processes.
- ➔ Resolved customer complaints and assisted with inquiries related to hotel services and events.

Technical Support Assistant Engineer
2010 - 2012

configuration and policy-based access.

IBRAHIM EZZELDIN MIRGHANI

APPLICATION SUPPORT SPECIALIST | DYNAMICS 365 CRM | L2/L3 ENTERPRISE SUPPORT

Hemaaa222@gmail.com | +971 0505470457 | Abu Dhabi, UAE (Onsite Ready) | Arabic (Native) | ITIL v4

PROFESSIONAL SUMMARY

Results-driven Application Support Specialist with 5+ years of hands-on L2/L3 experience supporting mission-critical enterprise applications across cloud and on-premise environments. Proven expertise in Microsoft Dynamics 365 CRM — including entities, forms, workflows, business rules, plugins, Power Automate, Dataverse, integrations, and API/SDK-level troubleshooting. Strong technical foundation spanning SQL Server, Oracle, PostgreSQL, Windows/Linux operating systems, IIS/Apache web services, and RESTful APIs. Experienced with APM tools (Dynatrace, Datadog, New Relic) and ITSM platforms (ManageEngine SDP, Jira) for incident management, root cause analysis, and service performance monitoring. Native Arabic speaker with fluent English, based in Abu Dhabi and available for onsite engagement. Committed to delivering system stability, rapid incident resolution, and continuous improvement in enterprise application environments.

CORE COMPETENCIES

- | | | |
|---------------------------------|---------------------------------|--------------------------------|
| ✓ Dynamics 365 CRM (L2/L3) | ✓ Root Cause Analysis (RCA) | ✓ SQL / Oracle / PostgreSQL |
| ✓ Entities, Workflows & Plugins | ✓ APM & Application Monitoring | ✓ Scripting & Automation |
| ✓ Power Automate & Dataverse | ✓ Incident & Problem Management | ✓ Arabic-English Communication |

WORK EXPERIENCE

Application Support Specialist (L2/L3)

Dec 2020 – Present

Alef Education Project | e& enterprise, Abu Dhabi

- **Served as primary L2/L3 escalation point** for enterprise application incidents across cloud-integrated platforms, SAP systems, and Microsoft 365 services — owning end-to-end resolution within SLA and coordinating with development, architecture, and vendor teams for complex issues.
- **Supported and maintained Microsoft Dynamics 365 CRM environments**, including configuration of entities, forms, views, dashboards, workflows, business rules, and solution management; troubleshoot plugin (C#) failures, JavaScript errors, and Power Automate flow breakdowns.
- **Performed integration troubleshooting** between Dynamics 365 and external systems via REST APIs and SDK, diagnosing data sync failures, authentication issues (OAuth, JWT), and web service errors across connected enterprise applications.
- **Conducted in-depth root cause analysis (RCA)** for recurring application incidents, leveraging Dynatrace, Datadog, and Splunk for APM monitoring, log analysis, and proactive bottleneck identification across web APIs and application integrations.
- **Performed application patches, updates, and performance tuning** across managed platforms, coordinating with DevOps teams on CI/CD pipeline validation and post-deployment smoke testing to ensure zero-downtime releases.
- **Wrote and maintained automation scripts (Python, Bash, PowerShell)** for log collection, incident routing, and configuration validation — achieving an 82% reduction in repetitive operational workload and significantly faster MTTR.
- **Managed incidents and service requests via ManageEngine Service Desk Plus (SDP) and Jira**, maintaining detailed incident records, configuration documentation, and knowledge base articles for supported applications.
- **Communicated complex technical issues clearly in both Arabic and English** to business users, stakeholders, and vendor teams, ensuring smooth cross-functional collaboration and rapid incident resolution across diverse teams.

IT Analyst

Apr 2018 – Nov 2020

AL Fahad Electrical Services LLC, Abu Dhabi

- **Provided L2 support** for SAP-integrated enterprise applications and IT infrastructure across business units, maintaining uptime, managing incidents, and performing root cause analysis for recurring application and network issues.
- **Administered SQL-based systems** and maintained database configurations, supporting application teams with query troubleshooting, performance issues, and data integrity validation.
- **Managed change and patch workflows**, coordinating configuration updates, baseline reviews, and system audits to ensure consistency between documented and actual system states.
- **Produced technical documentation**, troubleshooting guides, and user training materials in Arabic and English, improving team knowledge-sharing and first-call resolution rates.

Technical Support Assistant Engineer

2010 – 2012

Civil Registrations Dept, Ministry of Interior, Sudan

- Supported government-critical digital registration systems, resolving application and infrastructure incidents, managing policy-based access configurations, and maintaining system documentation.

TECHNICAL SKILLS

Dynamics 365 CRM	Entities, forms, views, dashboards, workflows, business rules, plugins (C#), JavaScript, Power Automate, Dataverse, solutions, integrations, migrations, API/SDK, reporting
Databases	SQL Server, Oracle, PostgreSQL, MySQL — query writing, performance tuning, data integrity troubleshooting
Web & Integration	IIS, Apache, RESTful APIs, web services, OAuth, JWT, SOAP — integration troubleshooting and API diagnostics
APM & Monitoring	Dynatrace, Datadog, New Relic, Splunk, Kibana — application health monitoring, log analysis, bottleneck detection
ITSM & Ticketing	ManageEngine Service Desk Plus (SDP), Jira, Zoho Desk — incident management, knowledge base, SLA tracking
Scripting & DevOps	Python, Bash, PowerShell — automation scripts, log parsing, CI/CD pipeline monitoring, deployment validation
OS & Networking	Windows Server/10/11, Linux/Unix, macOS — TCP/IP, DNS, firewalls, proxies, VPN, DHCP
Cloud & Identity	Microsoft Azure (AZ-900), M365 (Exchange, Teams, SharePoint, OneDrive), Active Directory, MFA, Intune
Compliance & Process	ITIL v4 Foundation, ISO 9001:2015, change management, release management, RCA, incident/problem management
